

14th European Insolvency & Restructuring Congress 2025

This year's European Insolvency & Restructuring Congress will once again provide insights on current developments in Brussels which will have an impact on our practice, and a platform for the exchange with experts from other European countries. High-level **representatives of the European Commission** but also **members of the European Parliament** will provide information on the state of the **restructuring culture in Europe** and the **harmonization directive**.

With exciting speakers from practice, teaching and industry, the following topics are covered:

- Which harmonization topics are coming and when?
- Why don't we standardize the basics: procedural objectives, reasons for filing for insolvency, etc.?
- How do the new restructuring tools work out in cross-border cases?
- Preventive restructuring vs. shareholders: with or without you – or against you?
- The most important decisions of the ECJ

FOCUS 2025

- Interference with the rights of owners, how is this seen elsewhere?
- Restructuring tools in cross-border cases

NOW WELL-ESTABLISHED:

DIGITAL FRIDAY

- Asset tracing, digital assets and digital asset tracking
- Data protection and privacy

The event will be held entirely in English and attendance will be on a strictly in-person basis.
We will publish the program shortly.
